Botanical Edge™

"It's Not a Miracle, It's Science"

ALL PURPOSE PLANT FOOD 12-4-8

Directions for Use:

- ❖ Shake bottle well before use.
- ❖ Mix 1 capful (.5 oz.) per 1 gallon water.
- ❖ Apply to leaves and soil every 1-2 weeks.

12-4-8

Guaranteed Analysis

Total Nitrogen (N).....	12%	Iron (Fe).....	0.1%
12% Urea Nitrogen		0.1% Chelated Iron (Fe)	
Available Phosphate (P ₂ O ₅).....	4%	Water Soluble Manganese (Mn).....	0.05%
Soluble Potash (K ₂ O).....	8%	Water Soluble Zinc (Zn).....	0.05%

Derived from: Urea, Tetrapotassium Pyrophosphate, Potassium Chloride, Ferric Ammonium EDTA, Manganese Sulfate, Zinc Chloride.
Caution: Keep out of reach of children and pets.

Information regarding the contents and levels of heavy metals in this product is available on the internet at <http://www.aapfco.org/metals.htm>

Botanical Edge™

"It's Not a Miracle, It's Science"

VEGGIE & HERB PLANT FOOD 8-4-4

Directions for Use:

- ❖ Shake bottle well before use.
- ❖ Mix 1 capful (.5 oz.) per 1 gallon water.
- ❖ Apply to leaves and soil every 1-2 weeks.

8-4-4

Guaranteed Analysis

Total Nitrogen (N).....	8%	Available Phosphate (P ₂ O ₅).....	4%
0.9% Ammoniacal Nitrogen		Soluble Potash (K ₂ O).....	4%
1.5% Nitrate Nitrogen		Iron (Fe).....	0.1%
5.6% Urea Nitrogen		0.1% Chelated Iron (Fe)	

Derived from: Urea, Ammonium Nitrate, Potassium Chloride, Potassium Phosphate, Ammonium Phosphate, Ferric Ammonium EDTA.
Low analysis fertilizer in the State of MS. **Caution: Keep out of reach of children and pets.**

Information regarding the contents and levels of heavy metals in this product is available on the internet at <http://www.aapfco.org/metals.htm>

LAWN FEED 13-0-6

Directions for Use:

- ❖ Connect garden hose to applicator and turn on water.
- ❖ With hose towards body and nozzle facing away, push tab on top of the sprayer to the right while turning the valve clockwise to the "ON" position.
- ❖ Spread evenly using sweeping motion. Product covers 4,000 square feet.
- ❖ Treat once a month, during growing season.
- ❖ Lawn greens up quickly and lasts for weeks. This product is a supplement to your regular fertilizer program.

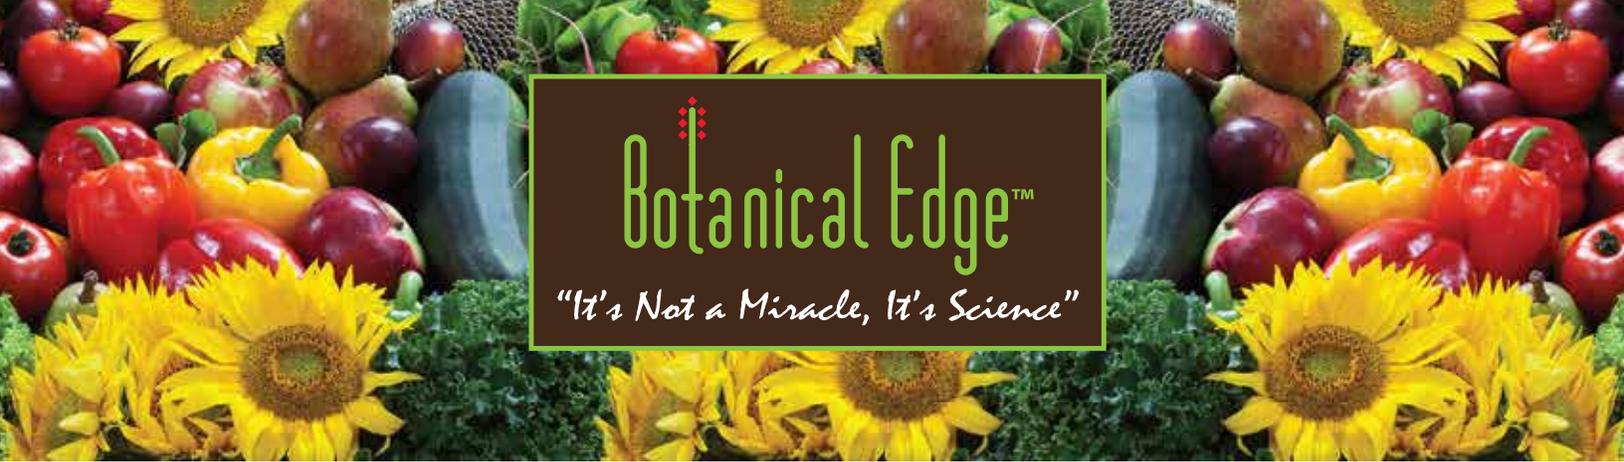

13-0-6

Guaranteed Analysis

Total Nitrogen (N).....	13%	Soluble Potash (K ₂ O).....	6%
0.4% Ammoniacal Nitrogen		Iron (Fe).....	0.1%
2.6% Nitrate Nitrogen		0.1% Chelated Iron (Fe)	
10% Urea Nitrogen			

Derived from: Urea, Potassium Nitrate, Ammonium Nitrate, Potassium Chloride, Ferric Ammonium EDTA.
Low analysis fertilizer in the State of MS. **Caution: Keep out of reach of children and pets.**

Information regarding the contents and levels of heavy metals in this product is available on the internet at <http://www.aapfco.org/metals.htm>

Botanical Edge

FUJIFILM Hunt Chemicals' new line of Liquid Fertilizers, with their proprietary blend of ingredients, will not only provide a great value to your customers, they will also meet or exceed the performance of other name brand products. These products are manufactured in Rolling Meadows, IL, USA where our economies of scale allow us to provide an excellent product at a competitive price. We are truly excited about the market potential for this product.

Fertilizer "By the Numbers"

Commercial fertilizers are labeled with three numbers that indicate the fertilizer's nutrient ratio — for example, 12-4-8, 8-4-4, and 13-0-6:

- ❖ The first number indicates the percentage of nitrogen (N).
- ❖ The second number shows the percentage of phosphate (the type of phosphorus, P_2O_5).
- ❖ The third number represents the percentage of potash (the form of potassium used, K_2O).

A 12-4-8 fertilizer contains 12 percent nitrogen, 4 percent phosphate, and 8 percent potash, and it's called a complete fertilizer because it contains some of each type of nutrient. In contrast, an analysis of 13-0-6 is a good source of nitrogen but doesn't provide any phosphate.

Advantages of Botanical Edge Liquid Chemical Fertilizers

- ❖ Provides immediate availability of nutrients. Provides nutrient-deprived plants with immediate access to available nutrients, increasing the likelihood of survival.
- ❖ Standardized nutrient levels provide a complete fertilizer; removing the guesswork in determining what nutrients your plants are actually getting.
- ❖ Ultra concentrated formulas minimize storage and shipping costs while providing added convenience.
 - ◆ One 32 oz. bottle of the All Purpose Plant Food will make 64 gallons.
 - ◆ One 32 oz. bottles of the Veggie & Herb Plant Food will make 64 gallons.
 - ◆ One 32 oz. bottle of the Lawn Feed will feed 4000 square feet and includes a garden hose applicator.
- ❖ Being a "sterile application", the risks associated with unwanted biological growth, disease and infections are virtually eliminated.
- ❖ Has minimum shelf life of 3-5 years (when stored properly).
- ❖ Leaves no residual waste in watering can.
